blue blue Energy Equipmen **DEF EQUIPMENT** CATALOG

blue Energy Equipment[®]

PROVEN | RELIABLE | INNOVATIVE

Headquartered in Greenville, SC, Blue1 Energy Equipment[®] is a fully integrated provider of storage and dispensing equipment for fleets of all sizes and vocations. Our broad assortment of fueling solutions includes petroleum and DEF (Diesel Exhaust Fluid) equipment, propane autogas systems and EV charging solutions.

Our DEF division is one of the nation's leading manufacturers of proven, reliable storage and dispensing equipment. Our sister company (formerly EZ Fuel), provides aboveground petroleum equipment for both diesel and gasoline vehicles. And, since partnering with leaders in both the electric vehicle charging and propane autogas industries, we now provide equipment and turn-key installation services for fleets turning to clean energy solutions as well.

We are proud to have some of the best and most recognizable fleets as customers. With our products installed at thousands of locations across North America, contact us today to find out how we can help you.

Blue1 Energy was recently presented with the DEF Industry Equipment Innovation Award at the 2019 Integer Conference held in Scottsdale, AZ.

SOUTHERN EASYTANK

Standard Tank Features:

- Fill & Dispense Bulkheads
- Fittings Package (2) QD Valves
- 500 20,000 Gallons Available

Optional Tank Features:

- 25 ft or 50 ft Hose Reel added to Pedestal
- Pulse Meter Assembly for Fuel Management
 System
- 2" Bulkhead for Tank Monitoring System

Remote Dispense Pedestal Features:

- 15"W x 15"D x 54"H (Pedestal w/out reel)
- 26 ¼ "W x 15"D x 54"H (Pedestal w/reel)
- TD10-115V Diaphragm Pump
- Turbine Flow Meter
- 20'/6' Dispense/Suction Hoses

NORTHERN EASYTANK

Standard Tank Features:

- 2" Layer Closed Cell Foam Insulation
- Polyester Reinforced Tank Wrap
- Fill & Dispense Bulkheads
- Fittings Package (2) QD Valves
- 500 20,000 Gallons Available

Optional Tank Features:

• Immersion Heater for Extreme Temps

Mounted Dispense Cabinet Features:

- 24"W x 48"H x 27"D
- TD10-115V Diaphragm Pump
- Turbine Flow Meter
- 25' Hose Reel
- 400W Heater with Auto Thermostat
- Liquid Level Indicator

Optional Cabinet Features:

- 50 ft Hose Reel
- Pulse Meter for Fuel Management System

TOTE CABINET

- Pre-wired electrical components certified to UL-508A & CSA C22.2 standards
- Pre-wired light, on/off switch & GCFI outlet require 110V, 30 amp service
- Weatherproof, insulated housing, door & roof
- Aesthetically pleasing, smooth, glossy white exterior finish
- Fold down access door for convenient fueling of either lane
- Lockable, heavy-duty door handles (on fold down and double doors)
- Optional built-in dispenser
- Forklift compatible frame, anchoring package included

- Forklift compatible base frame

DISPENSE SOLUTIONS

DEF DISPENSER

- Pre-wired electrical components certified to UL-508A & CSA C22.2 standards
- Insulated fiberglass & composite material enclosure (22x32x70)
- Includes stainless steel dispenser w/20' hose reel, swivel breakaway and auto shutoff nozzle
- Pulse output for integration with card readers
- Stainless steel solenoid valve
- 1" SS Ball valve for piping connection
- Anchor package included
- 1 micron polyethylene filter
- Dual hose dispenser includes two each: nozzle, swivel breakaway, filter, solenoid & 20' hose reel assembly

DISPENSE PEDESTAL

Features & Components Included:

- 15"W x 15"D x 54"H (Pedestal w/out reel)
- 26 1/4 "W x 15"D x 54"H (Pedestal w/reel
- TD10-115V Diaphragm Pump
- Turbine Flow Meter
- 20' Dispense Hose / 6' Suction Hose
- Auto Shut Off Nozzle

Optional Features:

- 25 ft Hose Reel
- Pulse Meter Assembly for use with Fuel Management Systems

TRANSFER SOLUTIONS

TRANSFER CART

Customized solutions available!

The Transfer Cart is the ideal solution for distributors needing an affordable and portable system for the bulk transfer of DEF. Blue1's TC10 flooded suction pump offers an open flow rate of 35+ GPM with no priming and minimal maintenance. Weights and Measures approved meter and register, air eliminator, and dual filters ensure DEF is delivered quickly, accurately, and contamination free. With a variety of nozzle and fitting packages available, the transfer cart can be customized to fit any bulk transfer application.

- Blue1 TC10 Centrifugal Pump Flooded Suction/Self Priming, Electric Start, 3/4 HP, 115V 10A, Continuous Duty, 35+ GPM Open Flow Rate
- 10' 1 ¼" Suction Hose, 20' 1" Dispense Hose
- 20' Power Cord With On/Off Switch
- Weights and Measures Approved Meter & Register With Ticket Printer
- Industrial Strength Powder Coated Carbon Steel Cart With Heavy Duty Solid Rubber Tires
- Can Be Outfitted With Blue1 High Flow Couplers, Quick Disconnect or Dry-Break Fittings. Drumming Nozzles Also Available.
- Approx. Dimensions: 37" W (Including Hose Hangers) x 27" L x 52"H

TRANSFER SKID

The Transfer Skid is an overbuilt solution for users needing higher flow rates and transferring larger quantities. With a variety of pumps and power sources available, we can tailor the skid to meet each unique application's needs.

Features & Components Included

- 1-3 HP Pumps Available. Gas Powered or Electric
- Weights and Measures Approved Meter and Register With Ticket Printer
- Air Eliminator With Filtration System
- Hose Reel With Integrated Roller Guides. Variety of Sizes and Lengths Available
- Quick Disconnect or Dry-Break Fittings. Drumming Nozzle Available.
- 4' x 4' Approximate Footprint

Customized solutions available!

MOBILE SOLUTIONS

DRUM CART

Features & Components Included

- Works with TD1 or TD12V Pumps
- Fits 55 Gallon Drum (not included)
- Accommodates 10 or 20 ft. Dispense Hose
- Closed, Secure System with Blue1 High Flow Valve and Coupler
- 16 Gauge Steel, Powder Coated Body
- Lockable Front Wheel
- Durable, Heavy Duty
- Battery Mount Option Available

(Drum not included.)

The Blue1 DEF drum cart is designed for extended service lift and easy use in a variety of operational environments. Our DEF drum carts feature a Blue1 diaphragm style DEF pump and up to 20 ft. of DEF hose. This is a complete, closed system that allows the end user to safely move a 55 gallon drum to the point of dispense.

You may also need: 4 Pin Valve Install Tool Tamper Evident Wire Seal Replacement Back Wheel Replacement Back Axle Replacement Front Wheel

TPDU-P

Features & Components Included

- TD10-12V Diaphragm Pump
- 20 ft. Dispense Hose
- Rugged All-Poly Housing
- Molded Recesses for Tie Downs During Transport
- Integrated Nozzle Holder Auto Shut Off Nozzle w/ Swivel
- Forklift Recesses
- Integrated Carry Handles
- Lockable Lid for Complete Security

The Blue1 TPDU-P features the same convenience, portability, and durability of the TPDU-M, but in a slightly lighter weight package. Made from ISO 22241 compliant rotationally molded high density polyethylene (HDPE,) the TPDU-P is UV and rust resistant for years of service in the harshest of conditions. The TPDU-P is equipped with our TD10-12V diaphragm pump.

<u>PDU Capacity</u>	<u>Weight (LBS)</u>	Dimensions (LxDxH)
33 Gallons	60	32x24x18 in
53 Gallons	62	32x24x23 in
113 Gallons	130	46x30x29 in
158 Gallons	156	46x32x40 in

TPDU-M

Features & Components Included

- TD12V Self-Priming Diaphragm Pump
- 20 ft. Dispense Hose
- 4 ft. Suction Hose
- Auto Shut Off Nozzle w/ Swivel
- Blue1 High Flow Valve
- Blue1 High Flow Dispense Coupler
- DEF Port will only accept DEF Nozzle
- Forklift Accessible for Easy Transport
- Lockable Lid for Complete Security
- Front View Strip for Fluid Level Visibility

The Blue1 Portable Dispensing Unit (TPDU-M) is a DEF compliant, enclosed, secure mobile dispensing system. Our PE tank is ISO 22241compliant for use with DEF. The TPDU-M comes with an easy to lift, hinged lid that keeps equipment and DEF free from dust and debris and the locking arm keeps the lid open when in use. The TPDU-M has a tamper proof locking system for total security. This unique dispensing system is housed in heavy duty powder coated carbon steel with a rust resistant finish. The outside view strip allows operator to monitor DEF levels.

PDU Capacity	<u>Weight</u> (LBS)	<u>Dimensions</u> (LxDxH)	<u>Heated</u>
20 Gallons	131	30x18x22 in	No
60 Gallons	200	45x24x30 in	No
100 Gallons	261	48x30x34 in	No

TPDU-M HEATED

Standard 110V Power Receptacle

Temperature probe installed. Temperature control activated at 30°F

The Blue1 heated PDU is insulated and fitted with a 120 vac 475 watt heating system that is designed to prevent the DEF from freezing in minimum ambient conditions down to -40° F (-40° C).

The heating system consists of two low watt density, low profile, waterproof, pressure laminated heater pads. One heater pad is attached directly to the exterior of the polyethylene DEF Tank and the second heater pad is attached directly to the underside of the PDU Equipment Tray. The heaters are connected to an Electronic Temperature Controller that is also located on the underside of the PDU Tray. This Temperature Controller will automatically energize and de-energize both heaters based upon the ambient air temperature being monitored and measured inside of the PDU Enclosure. The entire heating system becomes functional when a 120vac power supply is plugged into the Power Receptacle on the side of the PDU enclosure. A 20 foot industrial grade extension cord is included with the system. The heating system will automatically switch on and remain switched on when the Temperature Controller is registering an ambient air temperature below 30°F (-1.1°C) inside of the PDU Enclosure. The heating system will automatically switch off and remain switched off during all time periods when the Temperature Controller is registering ambient air temperatures above 30°F (-1.1°F) inside the PDU Enclosure.

PDU Capacity	<u>Weight</u> <u>(LBS)</u>	<u>Dimensions</u> (LxDxH)	<u>Heated</u>
60 Gallons	235	45x24x30 in	Yes
100 Gallons	296	48x30x34 in	Yes

Features & Components Included

- Great performance and quiet operation
- Self priming
- Built In 6 Minute Timer
- Stainless steel motor shaft
- Polypropylene housing
- Reliable EPDM diaphragm
- Viton check valve
- Flow rate 6-9 GPM
- 115V 60Hz, .44 HP
- Operating pressure 1.6 bar (25PSI)

The Blue1 TD1 is a self-priming, diaphragm style pump designed for cost effective use with drums, totes and via a wall mount system. Engineered and constructed to meet the rigors of dispensing DEF from industrial containers, this pump's universal mounting bracket is designed for optimal versatility. The TD1 can be set up in minutes; combined with out High Flow Valve and Coupler system, it can systematically deliver pure DEF. Every TD1 will provide the customer with instant flow and filling rates above 6 GPM. This pump can be used in many different DEF applications and will provide excellent results. Whether dispensing from a drum or tote, the TD1 provides the end user with excellent flow of DEF at an affordable price. All pump systems come with a convenient nozzle hook and hose hanger.

You may also need:

Drum Mounting Kit

TD12V

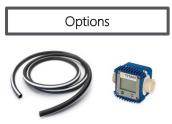

Features & Components Included

- Reliable performance and quiet operation
- Self priming
- Polypropylene housing
- Reliable EPDM diaphragm
- Viton check valve
- Flow rate 6-8 GPM
- 12 Volt, 1/3 HP

The Blue1 TD12V diaphragm pump is built for use in mobile DEF operational platforms. Either in the back of a truck bed or out in the field, the TD12V provides optimal flexibility. End users will love using this pump because it is self priming, has excellent performance and time tested reliability. Our universal mounting bracket allows for simple set up on the user's desired container style or size. Once the bracket is securely mounted, connect the 12 volt external power source and you are ready to pump DEF. The Blue1 TD12V is perfect for all your off-road needs.

You may also need: High Flow Valve, 4 Cam, 275g Dip Tube High Flow Valve, 4 Cam, 330g Dip Tube High Flow 4 Cam Dispense Coupler w/90 Barb

TD10

Features & Components Included

- Reliable performance
- Quiet operation
- Unique Micro Switch Allows On Demand Dispensing
- EPDM Diaphragm
- UL/ULc Certified
- 115V, 60 Hz
- Flow rate 5-7 GPM
- 6 ft Cord with 3 prong plug

Blue1's TD10 is a reliable, workhorse design which provides the complete out of the box experience for the drum and tote user. Designed to provide the end-user with a complete closed system DEF dispensing experience, the TD10 is a simple and cost effective self-priming DEF pump solution. Take it out of the box and plug it in, connect it to the drum or tote and you are ready for DEF dispensing.

You may also need: High Flow Valve, 4 Cam, 275g Dip Tube High Flow Valve, 4 Cam, 330g Dip Tube High Flow 4 Cam Dispense Coupler w/90 Barb

10 or 20 ft. hose Flow Meter

Features & Components Included

- CE Certified
- Unique Micro Switch allows On Demand Pumping
- EPDM Diaphragm
- Flowrate 5-7 GPM
- 12V
- 8 ft cord with Alligator Clips

Blue1's TD10-12V is a powerful diaphragm pump built to stand up to the demands of DEF dispensing. The TD10-12V's built in micro switch offers on demand pumping and is ready to perform whenever needed. The CE certification assures compliance with electrical safety standards.

You may also need: High Flow Valve, 4 Cam, 275g Dip Tube High Flow Valve, 4 Cam, 330g Dip Tube High Flow 4 Cam Dispense Coupler w/90 Barb

10 or 20 ft. hose Flow Meter

Features & Components Included

- High performance and quiet operation
- Stainless steel motor shaft
- Stainless steel housing
- Exclusive design
- Flow rate 7-10 GPM
- 115V 60Hz, 3/4 HP
- High operating pressure (8 bar max)

The Blue1 TC1 centrifugal pump is designed to handle the stringency of the DEF industry while providing economical, on-demand pumping for the end user. This mid-range, high performance pump is purpose built for use with totes and tanks. Every TC1 comes with a SureStop™ pressure switch that automatically senses inactivity with the pump. This 3/4 HP pump offers excellent lift and carry characteristics and will work with a wide variety of DEF applications.

Easy to install and operate, the TC1 is truly a powerful and robust system that is priced to provide exceptional value. It is not only economical and reliable, but a workhorse built for ultimate reliability.

You may also need: High Flow Valve, 4 Cam, 275g Dip Tube High Flow Valve, 4 Cam, 330g Dip Tube High Flow 4 Cam Dispense Coupler w/90 Barb

10 or 20 ft. hose F

Flow Meter @ Nozzle

The Blue1 TM1 is the perfect and affordable solution for low volume shops or as an emergency backup when an electric pump isn't an option.

You may also need: High Flow Valve, 4 Cam, 55g Dip Tube HF 4 Cam Fill Coupler, EPDM Gaskets, NRX w/fitting for TM1 4 Pin Valve Install Tool Tamper Evident Wire Seal Replacement Telescopic Down Tube for TM1

Features & Components Included

- Self Priming Submersible Pump
- 10 ft. Dispense Hose
- ISO 22241 Compliant
- DEF Flow Rates to 5 GPM
- Integrated Nozzle Holder
- Built-in Nozzle Swivels for Ergonomic Use
- Built -in 15 min Timer (AC/DC Model only)
- Universal Fit for Standard 55 Gal Drums
- Available with AC Adapter and 12V Clips or Rechargeable Battery

(Drum not included)

The Blue1 TED1 is the perfect and affordable solution for low volume shops and a better alternative to a manual hand pump when pumping from drums.

AC/DC Model Equipped with Built-In Timer

VALVES & COUPLERS

VALVES & COUPLERS

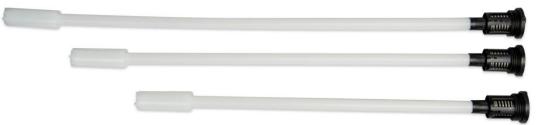

High Flow Dispense Coupler

- Design improvements allow for flow rates up to 23.5 gpm
- Heavy-duty handle with an audible click locking feature
- 4 Cam locking mechanism
- Integrated ¾" x 90 degree swivel barb connection

High Flow Fill Coupler

- Design improvements allow for flow rates up to 40 gpm
- Significant cost savings when compared to commonly used stainless steel fill heads
- 4 Cam locking mechanism
- BSPP swivel outlet can accommodate adapters from ³/₄ to 2"

High Flow Valve

- Optimized for performance that meets and exceeds DEF market demands
- Up to 20% better flow rate than the competition
- 4 Cam locking mechanism
- Secure and tamper evident ready
- 24 per case
- 3 Sizes (330g, 275g, 55g)
- Simple as Click. Pump. Go.

TOTE MANIFOLD

(Totes and Pump not included.)

The Blue1 Tote Manifold System) provides the end-user with a simple to install solution that links together totes in to a single pump suction point. No further need to move your pump around from tote to tote. The prepackaged kit comes assembled and ready to go after a few easy steps for installation. The manifold features a dual opening lid design with standardized 4-cam valves preinstalled for quick and easy refilling of each tote. The two hole cap replaces the current lid on your tote and is designed to incorporate your existing valve and coupler. Connect the manifold to the couplers and the pump and you're ready to dispense!

PARTS & ACCESSORIES

Carbon Steel Nozzle Holster (Nozzle not included)

Hose Reel (available in 25 ft or 50 ft) (Nozzle not included)

Hose Reel Tote Bracket (Hose reel, nozzle and tote not included.)

Auto Nozzle w3/4" barbed swivel, nozzle hook *Available without swivel and hook*.

Plastic Nozzle w/locking pin, 3/4" barbed connection

Misfill Prevention Nozzle w/Collar

Magnetic SS Nozzle w/nozzle hook, ³/₄"swivel Available without swivel and hook

Magnetic Collar Misfill Prevention Device (MFPD)

3/4" DEF Dispense Hose – designed specifically for dispensing DEF.

Titan ¾' DEF Suction Hose – reinforced with helix wire to prevent collapsing. Like our dispense hose, it is designed for DEF applications.
